| About our Classroom Training | Testimonials | About our Online Training |
|---|--|---|
| <p>"I was thoroughly impressed with the presentation of what could be a mundane, boring subject. The material was thoughtfully structured, informative, and professionally delivered. It thoroughly covered the subject matter, and clearly and concisely delineated our environmental responsibilities under the law, as currently written. I found it to be worth the time and financial commitment!"</p> <p>Benny Hodges, Hodges Oil Company, Inc., Petroleum Marketers Association of America (PMAA) Past Chairman</p> | <p>Quality</p> <p> <input checked="" type="checkbox"/> Excellent</p> <p> <input type="checkbox"/> Average</p> <p> <input type="checkbox"/> Poor</p> | <p><i>This is to inform whoever runs this online class, it's the best, easiest-to-retain, informative class I have ever taken. The original class I took 5 years ago gave me all the information, with a test at the end of the class. That one was hard to retain, and I had to go back to find the answers that were on the test. I listened to the information given [in the Petro Classroom Course], took some notes, and before I could forget anything up pops a quiz! This is the best way for anyone to remember anything I know of. I would gladly recommend this course to anyone needing this training, and look forward to taking the test again, hopefully the same way, in the next five-year deadline.</i></p> <p>New Mexico Class A/B/C Operator</p> |
